1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Roberts '767. Roberts '767 discloses the claimed invention, including the first air stream at a velocity of at least 200 fpm and the second air stream at a velocity of at least 300 fpm. Thus, the second discharge velocity is at least 1.4 times greater than the first discharge velocity.
